SUBJECT INDEX VOLUME 68

Abbreviated Injury Scale (AIS)
  improved characterization of combat injury, 1139
  scoring, traffic fatalities, 1413
Abdominal trauma
  blunt, latent pseudoaneurysm, CT identification, 1112
  compartment syndrome, novel physiologic model, 682
  open, management, trauma and emergency general surgery, 1425
  pancreas, endoscopic retrograde cholangiopancreatography, 538
  penetrating, nonoperative management, 721
Acute care, trauma surgery, paradigm shift, 1024
Acute respiratory distress syndrome (ARDS)
  biomarkers for, in trauma patients, 1121
  multiple organ failure and, fresh frozen plasma, letter, 749
  sivelestat effects, oxidative stress, 796
  ventilator performance, altitude effects, letter, 749
Acute stress disorder (ASD), propranolol effects, pediatric burn trauma, 193
Adolescents, traffic safety campaign, 511
Aeroportia, with systemic air embolism, after colon hydrotherapy, image of trauma, 247
Afghanistan, amputee soldiers, return to duty rate, 1476
Age, effects on severity and mortality, motorcycle-related injuries, 441
Air embolism, systemic, after colon hydrotherapy, image of trauma, 247
Airway scope, with in-line cervical stabilization, intubation with, 363
Alcohol use
  blood levels, effects on severe TBI outcomes, 357
  facial injuries, Scotland, 644
  intoxication effects, blood coagulation, 1106
  S100B levels and, after TBI, 1065
Alignment, proximal tibia fracture, medial parapatellar nail insertion, 975
Altitude, simulated, ventilator performance in ARDS and, letter, 749
Alveolar epithelium, biomarkers, trauma patients, 1121
American Association for the Surgery of Trauma (AAST), 2009 Presidential address, 753
Amputation
  hand, need for centers of excellence, 1480
  pediatric, resource utilizations, 131
  soldiers, return to duty rate, 1476
Anemia, change of hemoglobin after transfusion, in ED, 337
Anesthesia, regional, hip fractures in the elderly, mortality and, 153
Anesthetics, local, effects on mitochondrial functions, human neutrophil, 401
Angiography
  CT
    blunt cerebrovascular injury, letter, 508
    brain death confirmation, compared with nuclear medicine perfusion test, 553
    contrast, nephropathy induced by, elderly, 294
    hemopericardium, penetrating ulcer of ascending aorta, image of trauma, 1512
  embolization, hemorrhage in severe pelvic injury, 415
  mobile, pelvic fracture, ED, 90
  multidetector CT, vascular trauma, 96
  pelvic fracture, intra-aortic balloon occlusion, 942
Ankle joint, infection, after subtotal talectomy, case report, E118
Anticoagulation
  effects on mortality, trauma patients, 560
  minor head injury with, value of sequential CT scanning, 895
  prophylactic, during rehabilitation for TBI, 916
Antibiotic cement, uncemented arthroplasty with, septic arthritis, hip, 965
Antiplatelet therapy, effects on mortality, trauma patients, 560
Aortic injury
  diversion of lumbar artery, image of trauma, 1513
  lateral impact mechanism, real-life MVC, 1375
Apoptosis
  bone marrow nuclear cells, hydroxyethyl starch solution effects, after hemorrhagic shock, 655
  lethal hemorrhage, treatment with profound hypothermia, 1084
  lidocaine enhancement of, human neutrophil, 401
Argentina, urban trauma center, early prognosis in TBI, 564
Arginase 1, expression in myeloid cells, peripheral blood after trauma, 843
Arterial bleeding, surgical hemostasis, comparison of TachoComb and TachoSil, 838
Arterial pressure, pulse contour-derived cardiac output, simulating acute hemorrhagic shock, piglet, 1357
Arteriovenous fistula, associated with pseudoaneurysm, 33 years after combat injury, case report, E32
Arthroplasty
  staged, with short-term antibiotic therapy, septic arthritis, hip, 965
  total knee, periprosthetic fractures after, 1464
Ascorbyl free radical (AFR), oxidative stress and, ARDS, 749
Aspartate aminotransferase, blood test, delirium tremens in trauma patients, letter, 1516, 1517
Astragalus membranaceus, effects on peripheral nerve regeneration, rat, 434
Atrioventricular block, permanent, after MVC, case report, E1
Audiological deficits, with closed head injury, 13
Autopsy, traffic fatalities, abbreviated injury scale scoring, 1413
Avascular necrosis, femoral neck fractures, nonelderly adults, 236

Bacterial translocation, microflora variation, effects on acute liver injury, 76
Bandage therapy, impacted greenstick fracture, forearm, children, 425
Base deficit, diaspirin cross-linked hemoglobin effects, traumatic hemorrhagic shock resuscitation, 1158
Baux score, updating and extending, death after burn injury, 690
Beta blocker, effects on cerebral perfusion, after TBI, 353
Beta-natriuretic peptide, utility in TBI, pediatric, 1401
Bevacizumab, intravitreal, after intraocular foreign body trauma, image of trauma
Bile reflux, LPS-induced, ketamine effects, 69
Biochemical markers
  for ARDS, in trauma patients, 1121
  low plasma D-dimer concentration, pediatric head trauma, 1072
  S100B levels after TBI, alcohol intoxication effects, 1065
Biomechanical study, volar locked plates, distal radius fractures, 984
Biomechanics, two internal fixation devices, rib fractures, 1234
Blast exposure/injury
  multiple casualty incident, imaging utilization, 1421
  neurological effects, 1257
Bleeding, critical, educational initiative, 225
Blood components, educational initiative on critical bleeding, 225
Blood pressure, significance of single reading, during trauma resuscitations, 1289
Bloodstream infections, healthcare-related, systems initiatives for reduction, 23
Blood transfusion
  change of hemoglobin level, prediction, 337
  early, fluid administration and, improved survival after hemorrhage, 312
  fresh whole blood, effects on inflammatory response in hemorrhagic shock, 305
  massive
    penetrating trauma, early predictors, 298
    protocol, exsanguinating trauma patient, 1498
Bone cement, with dynamic hip screws, for unstable intertrochanteric fractures, elderly, 954
Bone flap, storage method, after decompressive craniectomy, 183
Bone grafting, compaction, tibial plateau fracture fixation, 980
Bone marrow, stem cells, MADG use and, 62
Bone morphogenetic protein (BMP), shock wave effects, scaffolds, 1439
Book reviews
  Guidelines for Trauma Quality Improvement Programmes, 502
  High-Tech Terror: Recognition, Management, and Prevention of Biological, Chemical, and Nuclear Injuries Secondary to Acts of Terrorism, 1014
  Musculoskeletal Trauma Simplified–A Casebook to Aid Diagnosis and Management, 745
  Neurotrauma and Critical Care of the Brain,

502
Review of Orthopedic Trauma Care, 1510
Brain death
confirmation, CTA or nuclear medicine perfusion test, 553
injury severity, quality of life and, importance of perspective, 263
organ donation after, time to procurement, 1362
potential organ donation, barriers to family consent, 447
Bronchoscopy, video-guided, in ICU, 367
Burns. *see* Thermal injury

Calcaneocuboid joint, involvement in calcaneal fractures, 1192
Calcium metabolism, fluid resuscitation and, TBI with hemorrhagic shock, 859
Capitellum, Hills-Sachs type lesion, case report, E30
Cardiac arrest
immediate, cardiogenic shock and, lightning strike, case report, E5
ultrasound in, letter, 1515
Cardiac injury, penetrating, case report, E71
Cardiac output, pulse contour-derived, simulating acute hemorrhagic shock, piglet, 1357
Cardiogenic shock, immediate cardiac arrest and, after lightning strike, case report, E5
Cardiomyopathy
inverted Takotsubo, head injury and, case report, E13
Takotsubo, after burn injury, case report, E77
Cardiopulmonary dysfunction, p38 MAP kinase inhibitor, in pneumonia, 1317
Carotid artery, intracranial internal, trauma in adults and children, 545
Cast therapy, impacted greenstick fracture, forearm, children, 425
Catheter-based procedures, interventional, delay effects on hemorrhage control, 1296
CD40, ligand expression, hypertonic saline effects, in sepsis, 331
Cecal ligation and puncture (CLP), MADG use in, 62
Central nervous system (CNS), stimulation, prevention of intestinal dysfunction in TBI, 1059
Cerebral perfusion, after TBI, propranolol dose and timing effects, 353
Cerebral sinovenous thrombosis, after closed head injury, letter, 250
Cerebrovascular injury, blunt
CT angiography in, letter, 508
practice guidelines, 471
Cervical collar, removal, after normal CT, 103
Cervical spine
incomplete three-view X-ray, frequent use of CT and, 1213
in-line stabilization, intubation with, 363
routine x-ray, blunt trauma and, letter, 1270
stab wound, leptomeningitis after, case report, E57
traumatic injury
clearance clinical practice guidelines, 1451
clearance in obtunded blunt trauma patients, 576
clinical exam and CT scan, letter, 1269
normal CT, collar removal and, 103
occult, CT vs CT and MRI, 109
role of MRI, letter, 1269
unconscious trauma patient, 1445
Chance lesion, adolescent lumbar, recurrent instability, case report, E16
Chest trauma
blunt
endobronchial blocker in, case report, E111
left cardiac luxation, case report, E74
mitral valve injury after, 243
thoracostomy tube removal, impact of positive pressure ventilation, 818
Chest tube, removal, impact of positive pressure ventilation, 818
Cholangiopancreatography, endoscopic retrograde, in pancreatic trauma, 538
Cholecystectomy, in-house trauma attending, financial benefit of, 1032
Circulation, PKC activation, hemorrhagic shock and, rat, 865
Clopidogrel, effects on mortality, blunt trauma patients, 560
Coagulation abnormalities
alcohol and gender effects, 1106
damage control resuscitation, warm fresh whole blood effects, letter, 1266
Coagulopathy
before craniotomy, recombinant Factor VIIa for, 348
early release of sRAGE, after severe trauma, 1273
educational initiative, trauma care, 225
hemodilutional, reversal, procine model, 1151
mild hypothermia effects, hemorrhagic shock model, 669
Collagen, hemostatic agents, evaluation in rats, 676
Colon hydrotherapy, systemic air embolism after, image of trauma, 247
Combat casualty care
characterization of injury, 1139
incidence and epidemiology of injuries, surge portion of OIF, 204
renal failure, in-theater peritoneal dialysis, 1253
return to duty rate, amputee soldiers, 1476
safety of hemostatic agents, wound model, swine, 269
training, letter, 1268
traumatic pseudoaneurysm, associated arteriovenous fistula, case report, E32
wound management, vacuum-assisted deep drains, 1247
Combat registry, improved characterization of combat injury, 1139
Compartment syndrome
abdominal, novel physiologic model, 682
foot, case report, E117
Complications
blood alcohol levels, effects on severe TBI outcomes, 357
July phenomenon, 19
Computed tomographic angiography (CTA)
blunt cerebrovascular injury, letter, 508
brain death confirmation, compared with nuclear medicine perfusion test, 553
contrast, nephropathy induced by, elderly, 294
hemopericardium, penetrating ulcer of ascending aorta, image of trauma, 1512
Computed tomography (CT)
blunt trauma, possible overuse, letter, 1266
chest, left cardiac luxation, case report, E74
clinical exam and, identification of cervical spine injury, letter, 1269
contrast, nephropathy induced by, elderly, 294
C-spine clearance, in obtunded blunt trauma patients, 576
diagnosis of intraabdominal visceral injury, 1019
frequent, incomplete three-view X-ray imaging and, 1213
latent pseudoaneurysm, after blunt splenic injury, 1112
multidetector, occult pulmonary contusion, blunt trauma, 387
multidetector
normal, collar removal and, 103
vascular trauma, 96
occult cervical spine injury, *vs.* CT and MRI, 109
reimaging, renal trauma, 9
traffic fatalities, abbreviated injury scale scoring, 1413
Computer simulation, lateral impact mechanism in MVC, aortic isthmus disruption, 1375
Conducted electrical weapons, use by law enforcement, 1239
Connexin 40, pulmonary permeability and, acute lung injury, 802
Contrast media, nephropathy induced by, elderly, 294
Corpuscular volume, blood test, delirium tremens in trauma patients, letter, 1516, 1517
Cost-effectiveness, in-house trauma attendings, benefits for hospitals, 1032
Craniectomy, decompressive, bone flap storage method, 183
Craniocervical junction, nail gun injury, case report, E99
Cranioplasty, bone flap storage method, 183
Craniotomy, coagulopathy before, recombinant Factor VIIa for, 348
Crash Injury Research Engineering Network (CIREN), crash test ratings, real-world outcomes and, 1099
Crashworthiness, ratings, real-world outcomes and, 1099

Critical care, ventilator-associated pneumonia, practice guideline effects, 382
Critical illness
anti-Xa levels, DVT and, 874
children, deep venous thrombosis, 52
intubation, induction agents for, letter, 748
pneumonia, vancomycin use, letter, 748
Cryopreservation, bone flap, after decompressive craniectomy, 183
Cytokines
hepatic damage, acute liver injury, 76
hyporesponse, splenic artery embolization effects, 532
modulation by induced hypothermia, acute lung injury in hemorrhagic shock, 373

Damage control
common and external iliac artery injuries, intravascular shunt, 1117
internal fixation, pelvic ring fractures, in polytrauma, 935
open abdomen management, 1425
orthopedics, femoral shaft fractures, 633
pulmonary hilum clamping, lung trauma, swine, 810
resuscitation, warm fresh whole blood, letter, 1266
TIVS, superior mesenteric artery injury model, 409
Decompression, timing, facial nerve paralysis outcomes, 924
Decorin, proteoglycan, implications in keloid pathogenesis, 999
Deep venous thrombosis (DVT)
anti-Xa levels, prophylactic enoxaparin dosing and, 874
incidence and risk factors
after brain injury, 912
critically ill children, 52
Delirium tremens, trauma patients, letter, 1516, 1517
Desmopressin (DDAVP), clot formation and, in hemorrhage, 42
Detonation, neurological effects, 1257
Diagnosis
delay, blunt intestinal injury, pediatric, 790
renal trauma, reimaging CT in, 9
Diaspirin cross-linked hemoglobin, traumatic hemorrhagic shock resuscitation, 1158
D- Dimer, low plasma concentration, in pediatric head trauma, 1072
Disaster, train crash, multicasualty incident response, comparison, 783
Dislocation
isolated volar radioulnar joint, case report, E23
open talus, clinical and functional outcomes, 1453
shoulder, anterior glenohumeral, self-reduction technique, 620
Displacement, after simulated pelvic ring fractures, cadaveric model of recoil, 159

Ebselen, effects on microcirculation, blunt skeletal muscle injury, rat, 853
Echocardiography
fluid resuscitation effects, after posttraumatic pneumonectomy, 604
mitral valve, after blunt chest trauma, 243
Elderly patients
distal radius fractures, volar fixed-angle plate osteosynthesis, 992
elevator-related injuries, 188
hip fractures, predictors of mortality, 153
identifying shock, National Trauma Data Bank analysis, 1134
nephropathy, contrast-induced, 294
odontoid fractures, nonoperative management, 583
unstable intertrochanteric fractures, dynamic hip screws, 954
Electrocardiography, chest trauma, new measures of heart-rate complexity, 1178
Elevator injuries, older adults, 188
Embolization
angiographic, blunt solid organ injury in children, 526
pelvic fractures, aortic occlusion in, 942
splenic artery, aggravates endotoxin hyporesponse, 532
Emergency department (ED)
change of hemoglobin after transfusion, prediction in anemic patients, 337
mobile angiography, pelvic fracture hemorrhage, 90
thoracotomy, gunshot wounds of heart and great vessels, letter, 1514
Emergency medical services, out-of-hospital triage, assessment of guidelines, 452
Endobronchial blocker, in blunt chest trauma, case report, E111
Endophthalmitis, *Citrobacter koseri* in, intraocular foreign body, image of trauma, 504
Endoscopy, endonasal, transfacial transsphenoidal gunshot wound, case report, E94
Endotoxin, acute liver injury, gut microflora effects on hepatic damage, 76
Enoxaparin, prophylactic dosing, anti-Xa levels and, in DVT, 874
Epidemiology
combat-related injuries, surge portion of OIF, 204
intracranial internal carotid artery trauma, adults and children, 545
tree stand-related injuries, U.S., 712
Erythropoietin, small intestine, hemorrhagic shock model, 1342
Estrogen receptors, hormone modulation, hemorrhagic shock, 35
Ethanol intoxication, gender and, effects on blood coagulation, 1106
Ethics
injury severity, quality of life and, importance of perspective, 263
potential organ donation, barriers to family consent, 447
Evidence-based medicine, healthcare-related infections, systems initiatives for reduction, 23
Exsanguination
hemostatic agents, vanilloid-based, evaluation in rats, 676
massive transfusion protocol, trauma patients, 1498
torso gunshot wound, early predictors of massive transfusion, 298

after transfusion, prediction of change, anemic patients in the ED, 337
deformability, estrogenic hormone modulation, 35
Red light cameras, driver behavior and, accident reduction, 515
Regurgitation, mitral valve, after blunt chest trauma, 243
Renal failure, combat-related, in-theater peritoneal dialysis, 1253
Renal replacement therapy
combat-related renal failure, 1253
continuous, refractory intracranial hypertension, 1506
Reossification, talus, after fracture, differences in children and adolescents, 126
Replantation, hand, need for centers of excellence, 1480
Residents, work hours, tertiary survey conducted by midlevel providers, 1052
Resources, use, injury severity score and, trauma patients, 463
Resuscitation
abdominal compartment syndrome, novel physiologic model, 682
educational initiative on critical bleeding, 225
emergency thoracotomy, Scandinavian hospital setting, 599
end points, blunt trauma in morbidly obese patients, 317
fluid
calcium influx and, TBI with hemorrhagic shock, 859
ischemic optic neuropathy after, case report, E67
hemorrhage, hypotension and desmopressin in, 42
hemorrhagic shock
diaspirin cross-linked hemoglobin infusion, 1158
early transfusion effects, rat, 312
fresh whole blood, 305
hypertonic saline use, in trauma, 1172
hypothermia, improved outcomes and, model of hemorrhagic shock, 662
profound hypothermia, treatment of lethal hemorrhage, 1084
single hypotensive blood pressure reading, significance of, 1289
Return to duty rate, amputee solders, Afghanistan and Iraq, 1476
Rhabdomyolysis, acute renal failure induced by, pentobarbital in, letter, 750
Risk factors
death, pelvic ring fracture after blunt trauma, 930
DVT, after moderate and severe brain injury, 912

Sacroiliac, unilateral dislocation, isolated, case report, E83
Saphenous perforator flap, reconstructive surgery, lower leg and foot, 1200
Sauvé-Kapandji, as salvage procedure, distal radius nonunion, case report, E123
S100B, levels after TBI, alcohol intoxication effects, 1065
Scaffold, osteoblast-like cells in, shock wave effects, 1439
Screws, internal fixation, hand fractures, 624
Seat belts, use by teenagers, traffic safety campaign, 511
Self-reduction, anterior glenohumeral dislocation, shoulder, 620
Sepsis
abdominal, use of synthetic MADG, 62
CD40 ligand expression, hypertonic saline effects, in sepsis, 331
ghrelin, effects on microvascular leak, 1186
intraabdominal, open abdomen management, 1425
pentoxifylline effects, inflammation and lung dysfunction, 822
p38 MAP kinase inhibitor, effects on cardiac and lung function, 1317
Septic arthritis
hip, short-term antibiotic therapy for, 965
supracondylar femur fracture, gunshot wounds, 970
Septic shock syndrome, snakebite, image of trauma, 1015
Shock
identification of, older injured patients, 1134
penetrating thoracic great vessel injury, admission hemodynamics and preoperative imaging, 834
TIVS, superior mesenteric artery injury model, 409
Shock waves, activity induced by, osteoblast-like cells in scaffolds, 1439
Shoulder
clavicle fractures, prediction, 177
dislocation, anterior glenohumeral, self-reduction technique, 620
floating, redefined, case report, E26
Side impact, should model for prediction of injury, 177
Silicone rubber, *Astragalus membranaceus*, peripheral nerve regeneration, rat, 434
Sivelestat, oxidative stress and, in acute lung injury, 796
Skeletal muscle injury, blunt, ebselen effects on microcirculation, rat, 853
Skeletal traction, *versus* external fixation, femoral shaft fractures, 633
Skin replacement, burn wounds, 490
Skull base, intracranial internal carotid artery trauma, adults and children, 545
Socioeconomics, alcohol-related facial trauma, Scotland, 644
Spectrometry, infrared, tissue oxygen saturation, children, 650
Sphincterectomy, pancreatic, ERCP, 538
Spinal emphysema, clinical significance, 736
Spinal immobilization
potential cervical spine injury, unconscious patient, 1445
soft-layered long spineboard, reduced pressure and increased comfort, 593
Spinal injury, penetrating trauma, immobilization effects, 115
Spineboard, soft-layered long, reduced pressure and increased comfort, 593
Splenectomy, combined nephrectomy, morbidity, mortality, and outcomes, 519
Splenic injury
blunt
latent pseudoaneurysm, CT identification, 1112
nonoperative management, children, 522
pancreatic injury and, pediatric, unusual management, case report, E44
Spontaneous breathing trials, lower interbreath interval complexity, extubation failure and, 1310
Stab wound
cervical, leptomeningitis after, case report, E57
spinal immobilization in, 115
Stem cell factor (SCF), MADG use and, 62
Stromal cell-derived factor (SDF-1), MADG use and, 62
Subarachnoid hemorrhage, cardiac failure after, levosimendan effects, case report, E108
Subcutaneous pocket, bone flap storage, after decompressive craniectomy, 183
Subdural hematoma
chronic, bilateral or unilateral, comparative study, 571
surgical evacuation, contralateral acute subdural hematoma after, case report, E11
Submandibular approach, for treating mandibular fractures, 641
Subtotal talectomy, infection of ankle joint after, case report, E118
Surgeon response time, change in mandate, level III trauma center, 1038
Surgery
delay in, hip fractures in the elderly, mortality and, 153
